

Desert zinnia

Zinnia grandiflora

(ZIN-ee-ah grand-dih-FLOOR-ah)

This little gray-green mound of fine foliage displays flowers like an annual; it is absolutely covered in yellow flowers from spring to frost. One of the best performers in the Native Roots selections. Tolerates a wide range of growing conditions, but to prevent foliar fungal problems it needs some room to breathe. We hope you are as enthralled with compact bundle as we are. Selected to deepen the yellow flower color. Grows in coarse to fine soils and tolerates mildly acidic to mildly alkaline conditions.
